

## Independent Outpatient Opportunity

*Windsor, Ontario, Canada*

B Medical Center is an established, independent practice seeking a motivated, energetic, passionate physician(s) who is eager to treat patients with a wide range of medical needs.

Located in the heart of downtown Windsor and within walking distance to Windsor Regional Hospital, Ouellette Campus, B Medical Center is a free-standing Out-of-Hospital Premises (OHP) Level 2 medical facility that is home to Aegis compounding pharmacy.

The clinic is fully digital, using Accuro EHR software.

The multidisciplinary health care team includes Registered Nurses, Medical Office Assistants, Nurse Practitioners, Family Physicians, Specialists, Pharmacists, Medical Aestheticians, and more.

The position presents the opportunity for growth and expansion, as well as an opportunity to rent your own space (up to 2800 sq ft available) within the building.

This is a terrific opportunity for a family medicine practitioner or specialist who is a leader in their field and strives to deliver outstanding patient care. There are several arrangements that can exist, such as establishing your own independent practice, relocating an existing practice, work within a pre-established group practice with an existing patient base, and more.

**If you would like to learn more about the opportunity, please contact Andrew Moukled via email at [a.moukled@mapractitioners.com](mailto:a.moukled@mapractitioners.com) or call (226) 346-9434.**
